

K-LOVE radio in our area reaches a towns in a 3 county radius. My family and friends listen to this radio station on a daily basis, it is encouraging to hear christian values and music on the radio. This is something the world is slowing moving away from. We need to keep God in our lives and keep this great nation we live in as "One Nation Under God". Removing christian radio stations is only moving us as country further from our founding fathers beliefs and God.
